Dear AUTHOR,

Thank you for submitting your paper, Self-Adversarial Learning with Comparative Discrimination for Text Generation, to ICLR2020. We are pleased to let you know that your submission has been accepted for presentation at the 2020 conference. You can find more reflections and statistics in our blog post about the review process at https://nam06.safelinks.protection.outlook.com/?url=https%3A%2F%2Fmedium.com%2F%40iclr_conf&data=02%7C01%7Cv-waz%40microsoft.com%7Ca4d067664d324820229e08d784f77f45%7C72f988bf86f141af91ab2d7cd011db47%7C1%7C0%7C637124070840195693&sdata=FXHYQ8uB2ZaU7uyZq8QErXk%2Fg0GVI7ZQIDov4UaOLmk%3D&reserved=0

All accepted papers are presented as a poster at the conference. We have important information on preparing camera-ready submissions, preparing posters, and attending the conference at the end of this message.

Congratulations, and we look forward to welcoming you to Ethiopia next year. Thank you for submitting your best work to ICLR.

== Additional Information and FAQs ==

** Meta-reviews and de-anonymization

You can find a final meta-review that summarizes the review discussion and decision-making on the openreview website, which we hope will be of value to your ongoing research. Openreview is an archival system, meaning papers submitted cannot be removed. All papers have now been de-anonymized and the last-submitted paper will remain available on the openreview website.

** Feedback to improve ICLR and OpenReview

Our processes are not perfect and continue to need improvement as the number of submissions and size of our conference grows. To help us improve, please share any feedback you have using this form: <https://nam06.safelinks.protection.outlook.com/?url=https%3A%2F%2Fforms.gle%2FJ95gWeEiWj4o9ZJM6&data=02%7C01%7Cv-waz%40microsoft.com%7Ca4d067664d324820229e08d784f77f45%7C72f988bf86f141af91ab2d7cd011db47%7C1%7C0%7C637124070840195693&sdata=eIO4Wrzs6Zq%2Bs18oDBaPCHO6dKTn%2Bveb9ItjKt%2Fhs0%3D&reserved=0>

** Camera-ready submissions due 14 February 2020

Please already prepare a camera ready version of your paper. The deadline for submitting camera-ready submission is the 14 February 2020. We strongly recommend you complete this in early January to avoid conflicts with the submissions deadlines for ICML2020 and ICLR Workshops. You can also find instructions in the author guide: <https://nam06.safelinks.protection.outlook.com/?url=https%3A%2F%2Ficlr.cc%2FConferences%2F2020%2FAuthorGuide&data=02>

Some guidance on preparing your camera-ready version

Insert the statement \iclrfinalcopy in your LaTeX source file.

Don't include any packages like "geometry", or "full page" that change the margins.

Don't process your paper with Apple Preview, or other tools that often alter margins.

For consistency across the proceedings, ensure your paper is formatted for letter paper rather than A4 (you can check with pdfinfo).

Ensure that the main paper (including references) does not exceed 10 pages. Additional references beyond this are allowed, and combined within one pdf.

if you also have your submission on arXiv, please update your arXiv paper with the camera ready version.

** Poster format

All accepted papers are presented as a poster. We will communicate the allocation schedule in the new year. As you prepare your poster, make sure your poster can be contained within a size of 90cm x 122cm (width x height). See the presentation guide for details:

** Attending the Conference

At least one author of each accepted paper is expected to attend the conference.

Registration for the conference opens on 21 January 2020, and early-registration rates and hotel rates end on 17 March 2020. Travel to Ethiopia requires a visa, and everyone who needs one can apply for an e-visa for Ethiopia easily. Please keep checking the website for details.

As with any travel, you may require travel vaccinations - please check the health advice issued by your country of residence. If you are travelling to Addis Ababa only, there is no risk of malaria or zika virus. Malaria and zika virus are mosquito-spread diseases and affect regions of the country below 2000m. Travel insurance is always advised.

The conference is held in the Bole area of Addis Ababa and is a safe area. Addis Ababa is home to the African Union commission and the city is highly-experienced in ensuring safety of high-level delegates. Through co-operation with the government, there will be heightened police in the area to give more peace of mind. The Millennium hall also has excellent security practices in place, which include inspecting vehicles entering and leaving, and detectors for unsafe items. There will be a special government endorsed letter that attendees can use for additional safety and a special government hotline. We also have access to our own ICLR hotline if there are any concerns or breaches of the code of conduct, which can always be used. LGBTQ+ safety has been an active and important discussion and a safety guide to help inform a decision to attend by queer members of our community can be found on the D&I page on the website:

If you are unable to present you poster for some reason, let us know and we'll do what

we can to support your needs. Email iclr2020programchairs@googlegroups.com

**** Further Discussions**

Although the decision for ICLR2020 are now finalised, further discussion on openreview is possible for all submissions. Public commenting has now been re-enabled, and you are also allowed as authors to post comments to address unresolved points/questions from reviewers and area chairs or to provide any necessary information to better inform future readers.
